

Center for International Securities and Derivatives Market

ABOUT US

The Center for International Securities and Derivatives Markets (CISDM) seeks to enhance understanding of the field of alternative investments through research, education and networking opportunities for our member donors, industry professionals and academics.

MORNINGSTAR-CISDM DATABASE

- The Morningstar CISDM Database (formerly the MAR Database) is the oldest Hedge Fund and CTA database in the market.
- Tracking qualitative and quantitative information for more than 27,000 hedge funds, funds of funds and CTAs since 1994.
- In addition to 16,000+ surviving funds, the Morningstar CISDM Database also includes a graveyard database of dead funds - which contains qualitative and quantitative information for over 11,000 inactive hedge funds, funds of funds and CTAs.
- Highly recognized as a research tool by academics in their studies and in articles related to the hedge fund and CTA industries.
- The Morningstar CISDM database contains:
 - Over 10,000 unique* live funds
 - Over 7800 unique* dead funds
 - Over 5700 unique* live and 300 unique dead funds with at least 3 years of history

* Unique funds are identified by removing data on multiple shares -- on shore and off shore -- offered by the same fund.
